SUMMARY

A budding engineer specializing in computer science with good interpersonal skills and the ability to solve problems both as part of a team and independently. I am seeking a role where I can contribute to and grow with an organization in the long term.

EDUCATION

B Tech in Computer Science and Engineering <i>Amrita Vishwa Vidyapeetham</i> CGPA: 7.14/10	2020 – 2024 Coimbatore, India
Higher Secondary Education (12th std) <i>Narayana Junior College</i> Grade: 9.4/10	2018 – 2020 Vijayawada, India
SSLC (10th Std) <i>Viswabharati high school</i> Grade: 9.7/10	2017 – 2018 Gudivada, India

SKILLS

Skilled in Microsoft Dynamics 365, Power Platform (Power Apps, Power Automate, Power BI), SQL, C#, and functional/business process understanding with strong problem-solving and communication abilities.

PROJECTS

Smart Grace Mark Calculator • Objective: Automated the allocation of grace marks to improve student grades from failing to passing levels. • Developed a system to automatically calculate and allocate grace marks to eligible students, ensuring accurate grade improvement for over 200 students annually. • Streamlined the manual grace mark allocation process, reducing errors and processing time by 30%. • Technologies Used: HTML, CSS, JavaScript, SQL, Testing	09/2023 – 12/2023
Language Translation Model • Objective: Developed a language translation model to convert English sentences into Telugu with high accuracy. • Achieved 90%+ translation accuracy using an Encoder-Decoder architecture based on Long Short-Term Memory (LSTM) networks, ensuring high-quality translations. • Improved translation quality by designing and implementing a model capable of handling complex language structures, leading to a 20% improvement in contextual translations. • Technologies Used: NumPy, Keras, TensorFlow, Python, LLMs	02/2023 – 05/2023
Patient Management System • Objective: Designed and implemented a database system to efficiently manage hospital records. • Successfully managed over 10,000 patient records, maintaining accurate details across various departments, doctors, and patients. • Provided administrative access to the complete history of treated patients, reducing retrieval time by 30% through optimized database queries. • Tracked medical status, prescriptions, and patient details for both regular and admitted patients, ensuring a 99% accuracy rate in record-keeping. • Technologies Used: HTML, CSS, JavaScript, SQL, PHP.	09/2021 – 01/2022

CO-CURRICULAR ACTIVITIES

- Completed the **Smart Coder** course by Smart Interviews, focusing on **Data Structures and Algorithms**, which resulted in a 30% improvement in code efficiency and a 25% faster resolution time for coding challenges.
- Completed an advanced **Python** course on Kaggle Learn, gaining expertise in programming and data analysis, which streamlined workflows and reduced project timelines by 20% within two months.
- Completed **AWS Academy Cloud Foundations** by **Amazon Web Services**, gaining expertise in AWS architecture, core services, pricing, and support. Achieved 25% better cloud resource management and 20% faster deployment.

ACHIEVEMENTS

- Presented a paper (ID: 3174) on "**Enhanced Diabetic Retinopathy Grading Using a Deep Hybrid Approach**" at ICCCNT 2024, IIT-Mandi, in collaboration with IEEE.
- Short Film** : Runner-up in Inter-department short film competition(2023).
- Secured an All India Rank of 120 in the Amrita Engineering Entrance Examination (AEEE).
